Topic Proposal**

Name_____ Per_____

Please come up with a proposal for at least three topics, crafting a statement of intent along with possible narrators you could utilize to tell your story. Include a statement regarding *why* this topic is of particular interest to you.

For example:

For my living history project I plan on describing events leading up to and including the fall of the Berlin Wall. Some possible narrators I'm considering are: East German citizen, E. German guard, West German citizen, and Radio Free Europe broadcaster. I'd really like to research this topic because I've been to Berlin and seen remnants of the wall and would like to create a realistic depiction of an incredible time in European - and global - history. I can't imagine what it must have been like to have lived in divided Germany. I also like this topic because it is recent history and this is more compelling to me.
